Dependent children are your or your spouse's natural children, step-children, legally adopted children, foster children, or children placed for adoption who are younger than age 26.

However, there is an exception to the age 26 limit listed above. This limit will not apply to any child who is incapable of self-sustaining employment by reason of mental retardation or physical handicap and is chiefly dependent on a parent for support and maintenance. You or your spouse must furnish proof of this incapacity and dependency to us within 31 days following the child's 26th birthday.

If you already have dependent children coverage in force, children born or placed in your home after the effective date of the dependent accident rider will also be covered from the moment of birth or placement. No notice or additional premium is required.

A hospital is not a nursing home; an extended-care facility; a convalescent home; a rest home or a home for the aged; a place for alcoholics or drug addicts; or a mental institution.

Hospital Intensive Care Unit refers to a specifically designed hospital facility that provides the highest level of medical care and is restricted to patients who are critically ill or injured. Hospital Intensive Care Units must be separate and apart from the surgical recovery room; separate and apart from rooms, beds, and wards customarily used for patient confinement; permanently equipped with special life-saving equipment to care for the critically ill or injured; and under constant and continuous observation by nursing staffs assigned to the Intensive Care Unit on an exclusive, full-time basis.
